

DIVISION OF COMMUNICATIONS

The Division of Communications assists the Commission in carrying out its duties as prescribed by the Code of Virginia. It oversees and monitors the continued implementation of competition in jurisdictional landline telecommunications markets with the goal of achieving an effective regulatory environment that balances the advancement of competition with the protection of consumers. The Division assists the Commission in developing, implementing, and enforcing alternatives to traditional forms of regulation as competition evolves. It monitors, enforces, and makes interpretations on certain rates, tariffs, and operating procedures of investor-owned telecommunications utilities. With a major focus on public health and safety, the Division enforces service standards and investigates and resolves consumer inquiries and complaints. It assures compliance with tariff regulations, maintains territorial maps, coordinates extended area service studies, enforces pay telephone regulations, and performs special studies. The Staff testifies in rate, service, and generic hearings, and meets with the public on communications issues and problems. The Staff also assists in carrying out provisions of the Federal Telecommunications Act of 1996, monitors developments at the federal level, and prepares Commission responses where appropriate.

At the end of 2014, there were subject to the regulatory oversight of the Division:

14	Incumbent Investor-Owned Local Exchange Telephone Companies
151	Competitive Local Exchange Telephone Companies
102	Long Distance Telephone Companies
42	Payphone Service Providers
